Statement of intent

The Upper Nidderdale Primary Federation has a duty to ensure that buildings under its control comply with the statutory and regulatory standards.

The school will consider each building's:

- **Condition:** focussing on the physical state of the premises to ensure safe and continuous operations, as well as other issues involving building regulations and other non-education centric statutory requirements.
- **Suitability:** focussing on the quality of the premises to meet curriculum or management needs and other issues impacting on the role of the school in raising educational standards.

1. Legal framework

This policy has due regard to all relevant legislation and guidance including, but not limited to, the following:

- Statutory Premises Management Documents
- Health and Safety at Work etc. Act 1974
- School Standards and Framework Act 1998
- The Lifting Operations and Lifting Equipment Regulations 1998 (LOLER)
- The Management of Health and Safety at Work Regulations 1999
- The Education (School Premises) Regulations 1999
- Equality Act 2010
- The Control of Asbestos Regulations 2012
- The School Premises (England) Regulations 2012
- DfE (2015) 'Advice on standards for school premises'
- DfE (2023) 'Site security guidance'
- DfE (2023) 'Managing asbestos in your school'
- DfE (2022) 'First aid in schools, early years and further education'
- DfE (2022) 'Health and safety: responsibilities and duties for schools'
- DfE (2023) 'Good estate management for school (GEMs)'
- DfE (2023) 'Good estate management for schools: estate management competency framework'
- DfE (2023) 'Keeping children safe in education 2023'
- DfE (2023) 'Emergency planning and response for education, childcare, and children's social care settings'

This policy operates in conjunction with the following school policies:

- Asbestos Management Plan
- Lettings Policy
- Accessibility Policy
- Accessibility Plan
- School Security Policy
- Adverse Weather Procedures
- Invacuation, Lockdown and Evacuation Procedures
- Health and Safety Policy
- Fire Safety Policy

2. Roles and responsibilities

The governing board and the headteacher are responsible for:

- The overall implementation of this policy.
- Taking a strategic approach to the management of the school's land and buildings, in line with business planning objectives.
- Having the right plans and documents in place to help create an environment that supports good teaching and learning.

- Ensuring the school's policies and procedures help to manage the estate effectively and efficiently.
- Understanding the legal interests, limitations, and responsibilities for the school estate.
- Possessing a comprehensive understanding of the condition, suitability and sufficiency of the land and buildings on the school estate.
- Using the knowledge of the school estate to inform strategic planning and decision-making.
- Delivering effective performance management across the estate.
- Ensuring energy, water and other resources are used efficiently and waste is kept to a minimum.
- Ensuring the school estate is safe for all users.
- Ensuring that the condition of the school estate and supporting policies fully comply with relevant legislation and regulatory standards.
- Ensuring maintenance is effectively planned and prioritised, informed by accurate and up-to-date condition data and the needs of the school's users.
- Ensuring all estate-related projects are clearly defined, follow approved processes, and use resources to best effect.
- Ensuring all estate-related projects deliver the desired outcomes.
- Ensuring asbestos is managed in line with the Asbestos Management Plan and Procedures.
- Ensuring the school is accessible and suitable for pupils, staff and visitors with disabilities.

The headteacher is also responsible for:

- Reporting any issues with the premises to, SBM and governing board as appropriate.
- Reviewing this policy in liaison with the SBM.
- Ensuring any potential risks are identified, formally recorded, assessed and managed – this should include taking appropriate preventative and protective measures.

The business manager is responsible for:

- Supervising the delivery of activities identified in the estate strategy and asset management plan.
- Identifying and addressing training needs of operative staff.
- Ensuring operational working practices are actively and consistently applied across the estate that reflect the school's strategic approach.
- Monitoring, collecting and assisting in producing information for reporting to senior leadership and governing body.
- Ensuring operative staff carry out their activities in accordance with organisational estate-related policies and procedures.
- Acts promptly to deal with estate issues and condition risks.
- Making sure work is approved and signed off in line with set processes and procedures as necessary.
- Helping to keep track of spending across the estate in line with available budgets.
- Challenging others appropriately where they see wastage and raising with team or manager as appropriate.
- Ensuring recognised financial procedures and practices are being followed.

- Supervising and supporting external contractors on-site to ensure procurement requirements are met.
- Supporting the implementation of business continuity and emergency planning processes.
- Managing or overseeing any lettings in line with the Lettings Policy.
- Purchasing new equipment and resources for the school.
- Managing the relevant staff members who are responsible for the management of the premises, e.g. catering and caretaking staff.
- The day-to-day implementation and management of the stipulations outlined in this policy, in collaboration with the headteacher.
- Identifying and escalating concerns about areas for improvement on the school estate.
- Providing basic information about the school estate to senior leadership as appropriate.
- Working within set processes and procedures relating to the management and operation of the estate.
- Assisting and supporting external contractors on site to ensure procurement requirements are met.
- Carrying out, recording and reporting premises walk-arounds and physical inspections on a regular basis.
- Following and ensuring adherence with any statutory guidance and documentation, such as asbestos surveys and registers to ensure no breaches occur.
- Checking the school's compliance with the relevant health and safety and premises management legislation, and reporting any issues to the governing board.
- Ensuring that hygiene is maintained at the school, including that the appropriate drainage is in place.
- Conducting the relevant premises risk assessments, e.g. fire safety.
- Arranging for periodic inspections to take place to comply with the requirements of the Electricity at Work Regulations 1989.

The caretaker is responsible for:

- The security of the school, including locking down the school after-hours and reopening the school.
- Reporting condition and any health and safety issues to appropriate colleagues.
- Asbestos and Legionella recording

3. Asbestos

The governing board, headteacher and business manager will ensure that the school meets its duty to manage asbestos in school.

The headteacher is the duty holder appointed to be responsible for ensuring that asbestos materials are properly managed. The appointed person will be provided with the resources, skills, training and authority required to ensure the asbestos materials are managed effectively.

The school will have an asbestos register, including associated remedial actions, and an Asbestos Management Plan. The Local Authority will review the school's Asbestos Management Plan, and regularly monitor the effectiveness of asbestos management arrangements to ensure that the risks are controlled. The headteacher and business manager will ensure that all staff are informed of any asbestos located within the school and, in collaboration with the governing board and, will arrange for any necessary repairs to the school regarding asbestos. The headteacher and business manager will ensure that an asbestos survey is undertaken by a qualified contractor whenever necessary and that the outcomes are recorded.

The headteacher will ensure that the stipulations of Asbestos Management Procedures are adhered to at all times. All staff, workers and contractors will receive adequate training and understand the precautions detailed in the Asbestos Management Plan.

4. Water supply

The caretaker will ensure that the school's water supply meets the regulatory requirements by carrying out the necessary checks at appropriate intervals, so that:

- The school has a clean supply of water for domestic purposes, including a supply of drinking water.
- Toilet facilities have an adequate supply of cold water and washbasins, and sinks and showers have an adequate supply of hot and cold water.
- Hot water at the point of use does not pose a scalding risk.

Risks relating to legionella bacteria will be managed by the school in the following ways:

- A competent person will be appointed to take day-to-day responsibility for controlling any identified risks
- Sources of risk will be identified and assessed in line with the HSE's Approved Code of Practice L8
- The Legionella Health and Safety Policy will be adhered to at all times
- A Legionella Control Scheme (or course of action) for preventing or controlling risks will be implemented and this scheme will be monitored
- Records will be kept of checks conducted to ensure measures in place are effective.
- A legionella risk assessment and the preparation of the course of action will be undertaken by a company which offers these specialist services

5. Toilet and washing facilities

Toilet and washing facilities will be planned to ensure that handwashing facilities are provided within the vicinity of every toilet and the facilities are properly lit and ventilated. These facilities will be located in areas that provide easy access for pupils and allow for supervision by members of staff, without compromising the privacy of pupils.

Disabled toilets will have a toilet, washbasin. Disabled toilets will also have a door opening directly onto a circulation space that is not a staircase and can be secured from the inside. Where possible, a number of facilities will be available, to ensure a reasonable travel distance that does not involve changing floor levels.

6. Accessibility

The headteacher and SENCO will keep the school's Accessibility Plan up to date to ensure the premises is accessible to staff, pupils and visitors with disabilities and other specific needs. The Accessibility Plan will include the health and safety needs of individuals with disabilities and other specific needs.

The school will take account of its Accessibility Policy when managing and maintaining the school site.

7. Drainage

The caretaker will carry out regular checks to ensure that there is adequate drainage for hygiene purposes and for the disposal of waste water and surface water – external drainage specialists will be called in should problems arise.

The headteacher and business manager will ensure gutters are regularly cleaned. Ponding on roofs will be dealt with as a matter of urgency as it can cause deterioration of roof finishes and, in severe cases, can overload roofs, contributing to structural failure.

8. Lighting

Lighting will be appropriate for a learning environment; where possible, natural lighting will be used. Adequate views will be available to the outside, to ensure comfort and avoid eye strain, and lighting controls will be easy to use. Blinds or other window covers will be provided, to avoid glare or excessive sunlight.

External lighting will be provided to ensure safe pedestrian movement after dark. Car parks will be well lit. Emergency lighting will be provided for areas which are accessible after dark. Security lighting will be provided around the perimeter of school buildings with dusk-to-dawn lighting on all elevations where there is an entrance door. Lighting will be designed to eliminate potential hiding points.

The headteacher and business manager will arrange for fixed electrical systems to be tested around the school site. This will cover all of the electrical wiring within the buildings and grounds, including:

- External lighting and supplies.
- Main panels.
- Distribution boards.
- Lighting.
- Socket outlets.
- Air conditioning.
- Other fixed plants.

9. Security

The headteacher, business manager and caretaker will make adequate security arrangements for the grounds and buildings, including, but not limited to, ensuring:

- Each building is securely locked and alarmed (if available) each night.
- Each building has a secure entrance.
- The school's perimeters are sufficiently secure.

The school's security arrangements are based on a risk assessment, which is reviewed by the headteacher and SLT, that explicitly considers the:

- Location of the school.
- Physical layout of the school.
- Movements needed around the site.
- Arrangements for receiving visitors.
- Staff and pupil training in security.

The School Security Policy addresses the school's approach to ensuring the safety and security of all staff members, pupils and visitors. The headteacher and SLT will ensure the school's security arrangements are adequate for the effective safeguarding of pupils and adhere to the expectations of the DfE, the LA and any local safeguarding partners, where possible.

10. Lettings

The headteacher and business manager will be responsible for any lettings and will ensure that the health, safety and welfare of pupils are safeguarded, and their education is not interrupted by others. The school's Lettings Policy will be adhered to at all times.

Hirers will make an application for hire to the school. When determining whether to approve an application; the headteacher will consider the following factors:

- The type of activity
- Possible interference with school activities
- The availability of facilities
- Health and safety considerations
- The school's duties with regard to the prevention of terrorism and radicalisation
- Whether the letting is deemed compatible with the ethos of the school

An application will not be approved if the hirer's purpose:

- Is aimed at promoting extremist views.
- Involves the dissemination of inappropriate materials.
- Contravenes the statutory Prevent duty.
- Is likely to cause offence to public taste and decency (except where this is, in the opinion of the school, balanced or outweighed by freedom of expression or artistic merit).

The governing board will ensure that appropriate arrangements are in place to keep pupils safe when hiring or renting out the school premises or facilities.

Where services or activities are provided by the governing board under the direct supervision or management of school staff, the school's arrangements for child protection will apply, in line with the Child Protection and Safeguarding Policy. Where services or activities are provided separately by another body, these arrangements may not apply; therefore, the governing board will:

- Seek assurance that the body concerned has appropriate child protection and safeguarding policies and procedures in place.
- Inspect the body's policies and procedures as needed.
- Ensure that there are arrangements in place to liaise with the school on these matters where appropriate.
- Ensure safeguarding requirements are included in any transfer of control agreement (i.e. lease or hire agreement), as a condition of use and occupation of the premises.
- Inform the body that failure to comply with these requirements would lead to termination of the agreement.

11. Weather

The caretaker will ensure that the school buildings provide reasonable resistance to penetration by rain, snow, wind and moisture from the ground by conducting regular visual checks. Any issues identified will be relayed to the headteacher and business manager. The school's Snow and Ice procedure will be adhered to at all times.

12. Invacuations, lockdowns and evacuations

The headteacher will ensure there is sufficient access so that emergency invacuations and/or evacuations can be completed safely for all pupils and staff, including those with SEND, by ensuring that all entries and exits are kept clear and unobstructed, and by carrying out regular checks.

To ensure the safety of pupils with SEND, the headteacher will liaise with the SENCO to establish the needs of pupils. Any issues will be reported to the governing board and SENCO, where appropriate.

When assessing the safety of the school, the Invacuation, Lockdown and Evacuation Policy will be considered, and reviews will be made where necessary.

13. Suitability

The headteacher will maintain the school by referencing the Environmental Health Authority's appropriate documentation, to avoid being condemned. The headteacher and business manager will further ensure that, in terms of the design and structure of school buildings, no areas of the school compromise health and safety, in line with the school's Health and Safety Policy.

14. Fire safety

School premises, accommodation and facilities will be maintained to a standard that ensures, so far as is reasonable, the health, safety and welfare of pupils and staff, including in relation to fire safety.

Fire risk assessments will be undertaken to identify the general fire precautions needed to ensure the safety of occupants in case of a fire. Procedures will be in place for reducing the likelihood of fire including fire detection and alarm systems. Those completing fire risk assessments, or providing advice in relation to them, will be appropriately qualified or experienced.

Staff and pupils will be familiarised with emergency evacuation procedures and risk assessments will be updated if there are any significant changes to the premises. All school procedures and provisions relating to fire safety are outlined in the school's Fire Safety Policy.

Fire detection and alarm systems will have a weekly alarm test. In systems with multiple manual call points, a different one will be tested each week, so that all are eventually included in the schedule of testing over a period of time. The caretaker will ensure all fire doors remain in efficient working order and should be regularly checked and maintained.

15. Catering

The Local Authority in consultation with the catering manager, will ensure that where food is served, there are adequate facilities in place for its hygienic preparation, serving and consumption.

16. Cleaning

The Local Authority will be responsible for managing cleaning staff and will ensure that classrooms and other parts of the school are maintained in a tidy, clean and hygienic state by monitoring standards. This is monitored by the headteacher and business manager. Adequate measures should be taken to prevent condensation and noxious fumes in kitchens and other rooms.

17. Maintenance

The headteacher and business manager will ensure that there is a satisfactory standard and adequate maintenance of decoration by implementing the school's planned maintenance programme, including statutory and good practice checks. Most of this work will take place during holiday periods, but smaller tasks may be completed during term time.

A number of documents will be held to assist in managing the estate and ensure it is safe for all users. These will include certificates and details of all statutory examinations, testing and remedial work.

18. Furnishings

The headteacher and SLT, will ensure that the furniture and fittings are appropriately designed for the age and needs, including any SEND or medical conditions, of all pupils registered at the school.

Consideration will be given to specific requests for furniture and fittings generated as a result of the annual departmental review of furniture and fittings conducted by the site manager.

19. Grounds

The headteacher and business manager will ensure that there are appropriate arrangements for providing outside space for pupils to play and exercise safely. Under section 77 of The School Standards and Framework Act 1998, playing fields are protected from development.

The condition of all playground areas will be monitored by the headteacher and business manager and deficiencies will be addressed. The school will ensure, as far as reasonably practicable, that the premises are safe and without risks to health. This includes external areas and means of access to and from the school.

The school will ensure risks associated with individuals entering or leaving the school estate are assessed and the school perimeter will be secured and controlled accordingly. There will be clear segregation and delineation of pedestrian and vehicular access routes, and separation of parking and playground areas.

20. Health and safety audit

The headteacher and business manager will ensure that the school premises are subject to a regular health and safety audit. The business manager will monitor that health and safety risk assessments are completed annually for each department. Any risks identified will be formally recorded, assessed and managed. This will include taking appropriate preventative and protective measures. Risk assessments will be reviewed regularly and kept up to date. This could be as a result of changed circumstances such as bringing in new equipment, using an area for a different purpose or if someone reports a hazard.

As well as formal risk assessments undertaken by competent persons, staff and pupils will be encouraged to report risks, and there will be a system in place to formally record and act on issues raised.

Health and safety monitoring arrangements will be referred to when carrying out any repairs, maintenance and improvement projects.

21. Electrical testing and inspection

A PAT exercise will take place annually. The schematic of the supply route and primary distribution will be updated annually. Fixed wiring and all distribution boards and safety devices will be inspected annually. All fixed wiring and all distribution boards will be tested at least once every five years.

All electrical testing and inspection will be carried out by a competent person.

A visual inspection will be carried out on all connecting cables, plugs and socket outlets before every use of the unit. The results of the visual inspection will be written in a log book as a permanent record of the condition of the electrical equipment.

It is at the discretion of the designer of the installation to use their professional engineering judgement and indicate the recommended inspection timeline on the certification provided.

Testing of all distribution boards in mobile accommodation will be conducted on an annual basis.

22. Gas

Gas and electrical safety posters will be displayed in the school offices. Appropriate signage, e.g. clearly visible hazard warning posters, will also be placed on storage room doors which are used for electrical and gas equipment.

All staff members working in areas with gas equipment will be made aware of the location of isolation valves, which are kept accessible at all times. In the event that electrical and gas supplies are shut off in an emergency, these will only be turned on again by a competent person.

Gas equipment and appliances will be purchased from reputable suppliers, and equipment that is hired or borrowed will be suitable for use before using it and maintained as necessary. The site manager will maintain an accurate inventory of all gas equipment purchased by the school.

All gas equipment will be installed by a suitability trained engineer and placed in appropriate locations with regard to fire safety and fire escape routes. The engineer's suitability to install or repair gas equipment will be confirmed, e.g. by showing their Gas Safe identification card.

The physical environment where gas equipment is installed will be assessed by local authority to ensure its suitability, e.g. that it is dry, clean and ventilated. All gas equipment will be kept clear of combustible materials, heat sources and naked flames and stored appropriately, in line with the school's COSHH Policy.

All gas equipment will be inspected and maintained, in accordance with the manufacturer's instructions, by the local authority. Equipment will also have confirmation of the approved test authority mark, indicating compliance with the relevant standard.

Gas pipes and flues will be made a suitable rigid material, e.g. metal, and these will be checked for any damage by the caretaker. All gas appliances will have the ability to be isolated from the gas supply.

Any isolation valve defects will be reported immediately to the headteacher or business manager so that appropriate repairs can be arranged, and the equipment is not used.

Repairs to gas appliances and fixtures will be carried about by a Gas Safe registered engineer. Engineers carrying out repairs on gas equipment will be given sufficient space, access, ventilation and illumination to allow them to carry out the work safely.

23. Monitoring and review

This policy is reviewed annually by the headteacher and the business manager. The next scheduled review date for this policy is summer term 2025.

Any changes to this policy will be communicated to all relevant staff members.
